Activated charcoal tablets made of wood charcoal are classic antifatulents which absorb & adsorb gas from G.I. tract due to its excellent adsorptive powers. It is available in uncoated form & with different strengths 125 mg, 250 mg & 500 mg.

OUR PRODUCTS:

CHARCOTABS

We are providing Dual Coated Tablets of Activated Charcoal & Simethicone; this product requires special skill to formulate the same. This is the only marvellous ANTIFLATULENT available in the world. The only product which acts in the body by physical actions. The product is available as dual coated tablets as follows:

Inner Layer:

Activated Charcoal 250 mg/400 mg

(Enteric coated for intestinal release)

Outer Layer:

Simethicone 80 mg

(Sugar coated for gastric release)

Simethicone is released in stomach & it expels the gas by coalescence of gas bubbles in the stomach. Activated charcoal adsorbs & absorbs gas from the intestine as it is released in intestine only. Hence, this logical treatment removes gas from whole G.I. tract.
