

PRECISION MACHINE VICES

- Made from rugged & stable cast iron
- The jaws and base plate are made of hardened and ground tool steel

Model	Jaw Width (mm)	Jaw Depth (mm)	Max Opening (mm)	Overall Length (mm)	Overall Height (mm)	Right Angle Accuracy (mm)	Net Weight (Kgs.)
PM-1	70	50	70	225	85	0.010	6.50
PM-2	60	30	60	190	70	0.010	4.00

- Made from tool steel
- Hardened & ground
- The moving jaw of vices is slightly narrower than the base to enable the vice to be used on its sides
- The moving jaw is guided through a precise lead screw

Model	Jaw Width (mm)	Jaw Depth (mm)	Max Opening (mm)	Overall Length (mm)	Overall Height (mm)	Right Angle Accuracy (mm)	Net Weight (Kgs.)
PMH-1	75	45	75	200	75	0.010	5.25
