INTRODUCTION

We feel pleasure to introduce ourselves as manufacturers and suppliers of multifarious industrial storage systems and cable tray.

Our products include a complete range of SLOTTED ANGLE, conventional STEEL RACKS, SUPER MARKET RACKS, WALL MOUNTED RACKS, HEAVY DUTY RACKS, PALLET RACKS, LONG SPAN RACKS, CANTILEVER RACK, MEZZANINE FLOOR, PERFORATED/LADDER TYPE M.S. CABLE TRAYS, in G.I and PAINTED, ALUMINIUM CABLE TRAYS, fancy WORKING TABLES for garment exporters and OFFICE STEEL FURNITURE.

Based on our long professional experience of 32 years and techno commercial study on industrial storage systems, we are today in a position to serve you the best of our expertise in space saving technology. We are capable to install MODULAR MEZZANINE FLOORS and two tier racks and can plan for your godowns, store rooms, record rooms and laboratories etc. SLOTTED ANGLES and ACCESORIES will reduce your storage cost considerably and more over it is completely reuseable for years together.

Our Technical Experts will study, assess and draw solutions of your specific storage problems free of cost and without any obligation.

We are sure you will find STORAGE SYSTEMS most suitable to your requirements. We will be pleased to hear from you and, if required, furnish any additional regarding information regarding storage.

Assuring you of our best services and cooperation for all times.
Perforated Cable Tray

These are U shaped M.S. Channels, with center perforation and two side Collars. The Collars will be Perforated for Coupler Plate. It is fabricated from 1.6 mm or 2 mm thick sheet. The width of the center perforated portion, may vary from 50 mm to 1000 mm and the height of Collars may vary on specific demand. Its covers are fabricated. Covers are un-perforated channels. Generally fabricated as per requirement of gauge. The width of cover is 5 mm more than the width of the cover is generally 25 mm. Higher thickness is provided on demand. Length of Cover may be in one piece or in two pieces, if required.

Standard Sizes available are:
Collar / Flange : 25mm, 40mm, 50mm
Width : 50mm to 900mm
Length : 2500mm

- And any size can be made on order but length will be remain same.
- Cable Tray made with M S sheet, G I Sheet & Aluminium Sheet
  Finished with Enamel Paint, Powder Coated & Hot Dip Galvanized

Standard Sizes

| 25 X 50 X 25 | 50 X 100 X 50 | 40 X 300 X 40 |
| 40 X 50 X 40 | 25 X 150 X 25 | 50 X 300 X 50 |
| 25 X 75 X 25 | 40 X 150 X 40 | 40 X 450 X 40 |
| 40 X 75 X 40 | 50 X 150 X 50 | 50 X 450 X 50 |
| 25 X 100 X 25 | 40 X 200 X 40 | 40 X 600 X 40 |
| 40 X 100 X 40 | 50 X 200 X 50 | 50 X 600 X 50 |

Made with MS 1.6mm, 2mm sheet and finished in Enamel Dark Grey Painted, Powder Coated Hot Dip Galvanized also made with Pregalvanized Sheet
Cable Tray Products provide continuous rigid support systems for electrical cables. Cable tray supports high voltage lines, power distribution cables, control wiring and varied telecommunication cables. It is a safe, versatile and cost effective way to carry large numbers of wires over considerable distances between their points of origin and termination. The conditions in your plant will determine your cable tray requirements.

- Made with MS 1.6mm, 2mm sheet and finished in Enamel Dark Grey Painted, Powder Coated Hot Dip Galvanized also made with Pregalvanized Sheet

**Standard Size**

- 50x150  50x200  50x300  50x450  50x600
- 75x150  75x200  75x300  75x450  75x600  75x750  75x900  75x1000
Race Way/Cable Duct

Raceways is a unique modular, cost-saving system for routing and protecting cables under raised floors. Ideal for wire management in computer and communications rooms.

Raceways modules are designed to meet any underfloor cable routing pattern. Simply select the modules you need for your system configuration and you'll have an economical, easily installed, permanent solution to your under floor cable routing and protection problems.

Raceways are known for its excellent quality as well as cost effective cable protection systems. These fittings provide cable protection in both lay-in and pull-through cable installations.

Features & Benefits

- Raceway Provides superior strength for any dry location.
- Single- and dual-compartment attractive raceway design. Provides functionality and flexibility with aesthetics for single or dual service applications.
- Made with MS 1.2mm, 1.6mm, 2mm sheet and finished in Enamel Dark Grey Painted, Powder Coated Hot Dip Galvanized also made with Pregalvanized Sheet

Standard Sizes

- 15x40x100 15x40x150 15x40x200 15x40x300
- 15x50x100 15x50x150 15x50x200 15x50x300

**Slotted Angle Steel Rack**

Shelving Racks are of three types, ie. **OPEN TYPE, SEMI OPEN TYPE AND CLOSED TYPE**. Besides these three types racks, we are fabricating other different types of racks also such as HEAVY DUTY PALLET RACKS. Storage racks having different load bearing capacity as per demand of the client. RACKS having different load bearing
capacity in the same rack. PIGEON HOLE RACKS (three sides covered racks having small compartments to store small components / parts).

**Shelves Standard Sizes**

9x33 12x33 15x33 18x33 24x33  
9x36 12x36 15x36 18x36 24x36

Gauges Available  
20/g & 18/g

We can fabricate any type or any size of rack as per the requirement of the party.
**Long Span Rack**

Long Span Shelving is constructively similar to light pallet racking but designed to store non-palletized goods. This is an intermediate application between light and heavy-duty applications. Long span shelving is designed for loading/unloading goods manually without mechanical equipment. Stored goods can be from smallest components to large and awkwardly shaped items.

**Standard Size**

*Shelves 600x1800   Slotted Angle 40x80*
Pallet Rack

Pallet racking system are most simple and widely used pallet storage format, with all Pallets directly accessible. It comes with wide range of accessories and components tailor-made to suit different pallet sizes and your precise needs. All components involved in the manufacture are finished to perfection, phosphated and stove enamelled to a high quality and range of colours, supported by professionals and service backup.

Cantilever Rack

Cantilever Racking is formed using heavy duty structural uprights and heavy duty arms. It is normally used for storage of long loads. Cantilever Racks are great to organize a warehouse, lumber yard or manufacturing facility. So often, companies put bulk items like Pipes, Tubes, Aluminum sheets, flake board, Steel Sheets, etc in piles on the floor - leaving it to the warehouse personnel to constantly sort unrelated heavy and bulky items. With cantilever racks, each type of product can be segregated by commodity and size.

- Standard Height 2500mm
- Standard width 900mm and multiple of 900mm
- Standard Depth 600mm

Modular Mezzanine Floor

slotted angle is a complete system, which has been designed and developed to solve all your storage and space problems in your congested godowns, stores, shops, factories, office and record rooms. It is most economical, strong and can be used for making all type of storage racks, mezzanine floors, staircase etc. in fact it
can make anything and everything you can think of and its applications are countless. Imagination is the only limit to MURPHY versatility.

MURPHY Slotted angle, panels and accessories are fabricated out of best grade cold rolled steel and is pretreated with anti-currusion solutions and a coat of special zienpholite primer before painting in stove enameled dark grey colour.

Transform unused spaces into a valuable asset.

MURPHY modular mezzanine floors create an ideal platform for optimum floor space and storage capacity, transforming unused spaces into a valuable asset.

Relocating is no longer a problem. MURPHY provides a flexible flooring solution. It can be quickly extended or dismantled to be re-erected at a different location.

Standard Size

8’x8’x8’ and 10’x10’x10’
Library Rack

Murphy book stacks are ideal for libraries, educational institutions, schools, colleges, universities etc. It facilitates systematic storage and easy retrieval of books. Murphy book stacks are carefully constructed to utilize the minimum of space and books stored can be clearly seen and easily accessible.

It comes in two types of sections (1) Main Unit (2) add-on sections. For a continuous block, one basic section is essential while add-on section can be added to have a block of desired length, the stack can be single faced or double faced, that are operable from one side and from both sides respectively.

STANDARD SIZE AVAILABLE

Single Face Rack Size

Height 2285mm
Width of main unit 935mm
Depth 350mm
Width of shelf 835mm
Depth of shelf 225mm
Total 7 levels in one rack
Double Face Rack Size

Height 2285mm
Width of main unit 935mm
Depth 550mm
Width of shelf 835mm
Depth of shelf 225mm
Total 14 levels in one Rack
Supermarket Rack

The innovative MURPHY range of display shelves is the result of the most advance technology, in terms of planning, production and materials.

MURPHY allows for completely new solutions and forms of optimization, offering display advantages which lead to greater quality and quantity of the display, hence promoting sales.
