

Since 1962, we specialize in manufacturing of **KEW** Brand of Cube moulds and **KEWIL** brand of quality control instruments like process control instruments, vibrating machine, vibrating table, lab concrete mixer and aggregate impact tester.

- Profile -

Incorporated in the year 1962, we - Kartar Engineering Works [India] Private Limited are engaged in manufacturing of KEW Brand of concrete moulds and KEWIL Brand of quality control instruments. Our range includes soil, cement, concrete, aggregate, bitumen, rapid moisture meters, laboratory apparatus. We were started by Mr. S. Bachan Singh and have an experience of more than four decades of experience in instrumentation and engineering.

Our long standing experience has achieved us lot of goodwill in the market this is why we are most preferred organization unlike others. Since the time of our establishment, we have successfully made a strong place not only with respect to the quality in products but also, because of our on-schedule delivery and competitive prices. We provide quality products at fair prices and utilize the latest technology & expertise in order to meet the needs of the customer.

Soil Testing Equipment:

We are offering a large range of instrumentation equipment which are widely demanded across the market. Under this category, all the instruments are used in testing the soil. These deliver accuracy and reliability in performance. Following are the products we are offering under this category:

Test Sieves

Pycnometers Products

Soil Moisture Meter

Sieve Shaker

Cement Testing Equipment:

In this category, we present various equipment related to cement like cube moulds. Our entire range is qualitative and at the same time cost effective. All the products are manufactured using premium quality raw material and advanced machinery. Following are the products we are offering under this category:

CBR Mould

Compaction Mould

Cube Moulds

Blain Air Permeability Apparatus

Concrete Testing Equipment:

Our team of experts has enabled us in manufacturing the most qualitative range of machines at economical prices. The entire range ensures accuracy, reliability and timeliness in working. Under this category, we present the following products:

Laboratory Concrete Mixer

Vibrating Machine

Cube Mould

Beam Mould

Aggregate Testing Equipment:

We are a well known name in manufacturing testing instruments which are available in economical prices. These products are well integrated with various essentials. Following are the products we are offering under this category:

Aggregate Impact Tester

Crushing Apparatus

Tile Abrasion Testing Machine

Cylindrical Measures

Bitumen Testing Equipment:

Our outstanding manufacturing facility have enabled us in producing instruments for testing the bitumen. Bitumen in particular is a mixture of organic liquids which are highly viscous, black, sticky, entirely soluble in carbon disulfide. This material is composed of highly condensed polycyclic aromatic hydrocarbons. For testing this bitumen on varied parameters, we use various equipment.

Bitumen Extractor

Ductility Testing Apparatus

Marshall Stability Test Apparatus

Automatic Bituminous Compactor

Material Testing Equipment:

Tensile Testing Machine

Impact Testing Machine

Torsion Testing Machine

Spring Testing Machine

Compression Testing Equipment:

We are engaged in offering Compression Testing Equipment includes Compression Testing Machine.

Compressive Strength Tester

Compression Testing Machine

Semi Automatic Digital Compression Testing Machine

Automatic Testing Machine

Industrial Products:

Jaw Crushers

Abrasion Machine

Riffle Sample Dividers

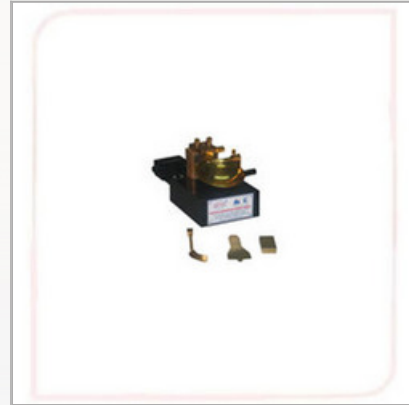

Drilling Machines

Other Products:

Soil Tester

Liquid Limit Device

Concrete Test Hammer

N Type Schmidt Test Hammer

Other Products:

Standard Penetrometer

Brazilian Test Apparatus

Rock Bolt Pull Out Test

Other Products:

Direct Shear Apparatus

Field Density Kit IS

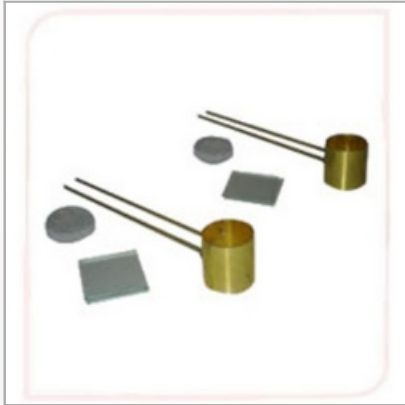

Sand Pouring Cylinder

Laboratory CBR Apparatus

Other Products:

Le-Chatelier Mould

Laboratory Cement Autoclave

Vicat Apparatus

Flow Table

- Company Factsheet -

Year of Establishment	1962
Nature of Business	<ul style="list-style-type: none">▸ Supplier▸ Manufacturer▸ Exporter
Total Number of Employees	51 to 100 People
Turnover	US\$ 0.25-1 Million (or Rs. 1-4 Crore Approx.)
Major Markets	<ul style="list-style-type: none">▸ Indian Subcontinent
