### **MANUFACTURING & SUPPLIER OF WATER TREATMENT SOLUTION & PLANT**

Unistar Aquatech Private Limited is known for water treatment solution Company. We design, manufacturer & supply of such as Water softening plant / Reverse Osmosis Plants / De-Mineralize / Mix bed / Mineral Water Bottling Project / Ultra Filtration / SS Tank, SS Vessel, DM, STP & ETP plant etc. Company having more than 12 years (Since 1998) experience in the Water Treatment Field . We have an extensive experience in this field and serving diverse industries for more than one decade. We are backed by a global team of selected professionals that specialize in the Indian water treatment industry. We provide solutions for Industrial, Commercial & Residential water treatment plants, this in turn increases our ability to meet specialized needs. Our water treatment plants are made of high quality materials that are safe and hygienic and needs low treatment cost. *An ISO 9001 : 2000 certified manufacturers & exporters of industrial and waste water treatment plants, RO plants & allied spare parts. Our plants are known for low power consumption & environment friendly operation.*

*Unistar Aquatech Private Limited has been engaged in manufacturing and supplying of a wide range of water treatment & RO plants and allied spare parts. As an ISO 9001:2000 certified company, we also offer a wide range of services that includes fabrication, assembling, installation, maintenance and replacement of spare parts of our water treatment plants.*

*Our range of treatment plants and spare parts includes water treatment plant, water softening plant, reverse osmosis plant, RO mineral water bottle plant, pure water treatment equipment, waste water treatment equipment, industrial high pressure pumps, swimming pool water treatment plant, domestic RO water system, UV water treatment plant and water treatment spare parts. Under the able and efficient guidance of our mentor and founder of the company Mr. G.K. Pal.*

**We promise you Satisfaction is our Priority**

#### **Water Treatment Plants**

- **Mineral Water Reverse Osmosis (RO) Plant**
- **Water Softener Plant, DM Plant, & Soda Plant**
- **RO Plant, UV Treatment, OZONATOR Treatment, SS Vessel**
- **Mineral Water Storage SS Tank**
- **Turnkey Setup Mineral Water Bottling Project**
- **STP & ETP Plant**

- **Automatic 2 Ltr. 1 Ltr. , .500ml Bottle Filling Machine**
- **Automatic Cup/Glass 250 ml Packing Machine**
- **Automatic 20 Ltr. Jar Filling Machine**
- **Automatic & Semi Automatic Pet Blowing Machine.**

- ***Water Testing Laboratory***
- ***Chemical***
- ***Glassware & Instrument***
- ***All Type of Water Treatment Chemical***
- ***Antiscalent Dosing Chemical, Membrane Cleaning Chemical.***

**RO Membrane- Dow Filmtac USA, Hydranautic USA. GE-Torai-/ High Pressure Pump CRI-Grundfoc – Sumo, Membrane Housing- Wave Cyber-Pentair-. FRP VESSLE- Wave Cyber-Paintair, Dosing Pump/Resin/Filter Cartdge, All Type Chemical. Activated Carbon.**

#### **Our Products**

We offer superior quality water treatment plants that process water in order to purify it through separation of particulate matter. These systems effectively make water fit for drinking and industrial water to be used for irrigation purposes. We are the one-stop platform with wide range of water treatment plant, reverse osmosis system, Micron filtration / disinfect ion [ ultra - violet - chlorinator / ozonator ]/ Chemical dosing / Swimming pool filtration systems and more. We offer following products that features:

- [Reverse Osmosis \(RO\) Plant](#)
- Water Softener Plant
- Mineral Water Plant
- DM Plant
- Soda Plant
- Filtration Plant
- Ozonater

- UV Treatment
- Automatic Mineral Water Packaging Machine- 1 Lit. Bottle ,20 Jar & Cup Filling Machine ,
- Lab, Glassware & Chemical
- Mineral Water Storage SS Tank
- Turnkey Industrial projects
- [Conventional Pressure Filters/Iron Removable Filters](#)
- Swimming pool Water Treatment
- [Sewage Treatment Plants and Water Recycling Plants](#)
- [Effluent Treatment Plant](#)
- [Hydro Pneumatic Pressure Boosting Systems](#)
- [Turnkey Swimming Pool System](#)
- All Water Treatment Components
- Residential Product- RO System, Softener, UV System,

### **Services Offered**

- Turnkey contracts
- Plant operation and maintenance
- Laboratory test and pilot scale testing
- Basic design and engineering
- Erection and commissioning
- Operator Training
- After sales and services
- Equipments and spares supply.

### **Quality**

Quality is paramount for us and we rigorously check the products at each and every stage of manufacturing. We have set our focus on future requirements of the industry, while successfully meeting the present unistar aquatech demands. Today, our products are known for durability, quality and dependability. At unistar aquatech , research and development is a continuous ongoing process, so that we can offer our clients the best value for their money.

### **Infrastructure**

Our state-of-art infrastructure is located Registered Sales Office at Vikas Marg East Delhi India. And Factory at Rajender Nagar Industrial Area Mohan Nagar Gaziabad Uttar Pradesh India.

Our manufacturing unit is well equipped with sophisticated machinery having all the latest tools and equipments. Our well defined infrastructure has developed a network of divisions within its structure each concentrating on highly precision engineering systems. We ensure that our machineries are continuously upgraded so as to maintain their efficiency and efficacy. Our infrastructure includes fabrication and pilot testing facilities within the workstation.

### **Team**

We nurture a team of highly qualified engineers and other professionals who have developed their expertise in designing, installation, commissioning, and after sales services of our high end technological water treatment systems. We have site experts who can handle the water and

wastewater treatment problems. A separate project team is formed who are responsible for the project right from the planning till the commissioning of the project. They also ensure in time execution of the project with the following role on hand. We ensure to offer our team various career development and training opportunities yielding better results.

### **Total Customer Satisfaction**

All our products and solutions are specially designed keeping in mind the specific needs of the customers and technical requirements for the betterment of the environment. In sync with the demands of the market, we offer products such as Reverse Osmosis Plants, Wastewater Treatment Plant, Water Softening Plant that are capable enough to face the global challenges of the dynamic market and meet the requirements of our valuable customers.

## Management:

The company has an ability to design and fabricate all types of jobs. The company is managed by a group of qualified and experienced Mechanical Engineers, and process engineers, Finance and Information Technology and manufacturing. The work force at Unistar Aquatech of experienced and skilled personnel who are adept at developing and manufacturing quality machinery. The company has well-organized factory units. The manufacturing units with all the necessary work-shop machinery. We are always open to new ideas flowing in from any level & has a faster implementation of strategies and decisions to be made.

## Growth Map

~~UNISTAR AQUATECH MADE A HUMBLE BEGINNING IN 1998 IS PROMOTED BY A TECHNOCRAT WITH MANUFACTURING FACILITY NAMED UNIVERSAL TECHNOLOGY COMPANY CATERING WATER TREATMENT SOLUTIONS INDUSTRY. TODAY, HAS A HEAD OFFICE IN DELHI INDIA~~

## Future Plans

The target of being one of the most reliable suppliers in Asia would be achieved through launching more customer service centers across the Middle-East & Gulf. The Company has identified many organizations geographically spread in markets, which would be ultimately working as distributors & agents.

The Group is planning to introduce new products every year in next 3 years to make itself unique in the market of packaging & labeling solutions. Keeping the growth rate achieved in last 20 years, the company aims to look forward to break its own record & achieve growth of 30-40% per annum.

## Quality Policy

Quality is the driving force behind our success and we are continually committed to maintain high quality standards during process and through pre-shipment inspection. Adherence to delivery schedules and offering most competitive rates have rewarded us with the invaluable trust of the customers.

## Customer Care

Our service support personnel are on hand everyday to respond to inquiries and calls for service and/or repair if needed. A full-year's warranty accompanies every piece of equipment and machinery, and availability of spare parts and optimizing a weak area of operation.

Our products are customer driven. Each machine is an original, custom designed to exacting customer specifications and engineered to solve specific customer problems.

Prompt and dependable customer service, quality assurance, training, and engineering support, all contribute to the value our customers have come to expect. We are committed to implementing and maintain the highest quality standards.

## R&D

Continuous product optimization is a routine aspect of our work through research & development. The professional zeal coupled with growth and brilliant career opportunities impels our technicians to excel themselves. Testing and inspection is uncompromising at UNISTAR to ensure the quality of the dual project.
