

FS-20 FP Reader

Attendance Reader with inbuilt RF Reader, USB & USB Host & Battery Backup

FS-20 model of its popular Time attendance recorder. **FS-20** is powered with advanced features and come with quality & service assurance from ZENEX.

FS-20 offers the fastest fingerprint identification and verification speed in the industry and features intelligent fingerprint recognition technology for the first time. It automatically learns and adapts to the changes in the fingerprints, leading to lowest false rejections in the industry. **FS-20** comes with Fast TCP/IP network communication as well as popular USB Flash Disk function to download/upload users and attendance logs. It can be used in offices as well as at factories, construction sites and service industry.

Features :

Fingerprint Intelligence – FS-20 is most intelligent fingerprint recognition system. It can automatically update the registered fingerprint template based on the changing patterns of the skin and behavior of finger placement. This unique feature ensures that administrator is not required to frequently re-register users and false rejection is minimal.

Fastest Fingerprint Scanning & Matching – FS-20 comes with the fastest fingerprint scanning & matching. 50% more people can give attendance within same time leading to time saving and less queuing. It also offer lowest finger rejection compared to competing products.

Inbuilt RFID Card Reader – FS-20 comes with inbuilt 125 KHz Standard RFID Card Reader which allow user to use double authentication of Card & Finger, Reader can be configured Card + Finger / Card or Finger.

Rugged & Scratchproof Fingerprint scanner – FS-20 come with rugged and scratchproof fingerprint scanner with long life. Some competing products in the market require you to change the scanner surface every few months.

Model Name	FS-20
Finger Storage Capacity	2000 Finger Images
Logs Storage Capacity	50000 Records
Maximum Finger Per person Stored	3
LCD Display	128*64
Language	English
User Name Display	Display User Name up to 8 Characters
Voice	Integrated Human Voice with Buzzer
Finger Print Sensor	Rugged Optical Sensor
Identification Time	= < 1 sec
Central Processing Unit	Arm9
Communication	TCP/IP, USB.
Power Supply	12v 1Amp
Accessories & Packaging List	Power Adaptor, Mounting Bracket & Screw, Attendance Software CD, Cables & Manual
