

We are the leading manufacturers and exporters of all kind of transformers and chokes. Our transformers are used globally for commercial and industrial applications.

We are pleased to introduce ourselves as one of the leading transformer manufacturer in India. Magnetic & controls is working towards providing quality products at reasonable rates. We have the expertise to provide solution to your entire transformer and transformer related requirements. Our range of transformers starts from 50VA single Phase to 1500 KVA 3 Phase. We manufacture Isolation Transformers, Ultra Isolation Transformers, K-Rated Isolation Transformers, UPS Transformers, Furnace Transformers, and Step down and Step up Transformers, Current Transformers, Scoot Connected Transformers and Chokes.

We are specialized in Isolation, Ultra Isolation and K-Rated Transformers. We design our Isolation Transformers in such a way to meet all the purpose of an Isolation Transformer. We are supplying our Isolation Transformers to lot of CNC Manufacturers, CNC Machine Shops, UPS Manufacturers, Imported UPS dealers, etc.

We are designing our K-Rated Transformers according to its guide lines and Specifications. We use high grade CRGO laminations for our K-Rated Transformers. Our K-Rated Transformers are of Class-H which will withstand 180??? continuously. We use notching type lamination for our K-Rated Transformers, because of that our Transformer core will not saturate even in high Voltage.

We also manufacture Aluminum wound Transformers also for those who require Transformers in Aluminum. Price wise Aluminum Transformers will be cheaper than Copper wound Transformers. The size of the Transformer will be slightly oversized. We can maintain the same performance of Copper Transformer in Aluminum Transformers also.

Auto Transformers:

The auto transformers we manufacture and supply are extensively used in various industries and have gained huge appreciation for their host of qualitative features. These variable auto transformers are manufactured using qualitative material sourced from certified vendors.

Single Phase Servo Auto Transformers

Three Phase Auto Transformers

Oil Cooled Motorized Auto Transformers

Power And Control Transformer:

Our wide assortment of control transformer and power transformer is fabricated in different model types. Due to the application of cutting edge technology, we have are enabled to offer tailor made solutions. Therefore, our entire range is a one-step solution to all the power problems.

Single Phase Control Transformer

Three Phase Control Transformer

Aluminium Wound Transformers

Oil Cooled Transformer

Electrical Chokes:

We fabricate an assortment of electrical chokes that finds extensive application for power supply filter and is also available with customization to suit the specific needs of our clients. Available in industry leading price, these chokes are widely appreciated and demanded by our clients for their reliable performance and wide applicability.

Industrial Chokes

High End Chokes

Motor Drive Reactors

Detuned Reactors

Other Products:

Isolation Transformer

Ultra Isolation Transformer

K-Rated Isolated Transformer

K-Rated Ultra Isolated Transformer

Year of Establishment	2006
Nature of Business	· Manufacturer · Exporter
Total Number of Employees	11 to 25 People
Turnover	Upto US\$ 0.25 Million (or upto Rs. 1 Crore Approx.)
Major Markets	· Middle East · South America
