

Online LPG, Natural Gas & Coal Gas Domestic Detector TX-801

FEATURES

- Light Weight & Less Space Consumption.
- High Intensity Visual & Loud Audible Indication.
- Low Power Consumption.

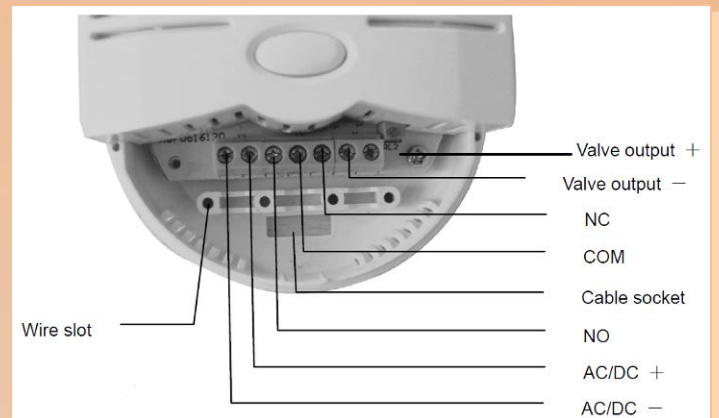

DESCRIPTION

TX-801 series is a kind of wall-mounted household gas detector designed to detect the concentration of combustable and toxic gases or vapors using high quality air-sensitive component and manufactured with advanced technology. It provides visual and audible signals when the gas concentration reaches the presetting range, and reminds you to take prompt favorable action. You may start up other link equipments, open windows or shut off gas supply to avoid fire, explosion, suffocation, or other malignant accidents.

FUNCTIONS AND INDICATIONS

1	Red light	Alarm indication
2	Yellow light	Fault indication
3	Green Light	Power indication
4	Test Button	To test alarm function
5	Air vent	Detection

SPECIFICATION

MODEL	TX-801
Working voltage	AC220V±15% / AC110V±15% 50Hz DC12V / DC24V
Detecting gas	LPG: Propane and Butane; Coal Gas: Hydrogen and Carbon monoxide; Natural Gas: Methane.
Power Consumption	≤3W
Working Environment	Temperature: 0°C~55°C Humidity: <95%
Response time	≤30s
Gas Sampling	Diffuse naturally
Alarming Point	Carbon monoxide 150ppm Natural Gas 10%LEL
Alarm method	Visual and Audible
Alarm sound	≥70dB
Weight	300g
Dimension	l×b×h,mm:135×82×41
Function	Gas shut off valve output
