Animal / Poultry Feed Supplement

For Veterinary Use Only

Not for Human / Medicinal Use

VTox™ Forte

# VTox™ Forte

- ▶ MOS\* & Bacillus subtilis\* helps to bind the pathogens in the gut thereby reducing the colonies to maintain a healthy gastrointestinal tract. It also helps to improve the immune system and reduces the stress conditions
- ▶ Non Toxic organic acids\* have an excellent efficacy against toxins in feed and reduce them to desired level
- ▶ HSCAS\* improves the performance, internal organ weight, gastrointestinal and biochemical parameters of the bird by toxin control
- ▶ The (Bamboo) charcoal powder\* supplement is able to absorb many toxins from water-borne organisms or toxins from feed. In Layers it helps to increase the laying rate with longer laying period and increased egg weight. In broilers it helps to improve the survival rate and in general reduction in mortality
- ▶ Liver stimulants\* enhance and improves the liver functions during toxicity
- ▶ VTox™ Forte is recommended for:
  - ▶ Toxin binding\* and mold inhibition\*
  - ▶ Reducing the moisture content in the feed
  - ▶ Control of mold in the feed
  - ▶ For improved performance

\*For details please write to [globalmarketing.ahn@vxl drugs.com](mailto:globalmarketing.ahn@vxl drugs.com)

## VTox™ Forte:

- ▶ Controls the excess moisture in the finished feed
- ▶ Provides a broad spectrum mold inhibitor activity
- ▶ Absorbs the toxins but not the vitamins & minerals
- ▶ Non interference with other feed additives
- ▶ Improves the liver functioning
- ▶ Prevents the multiplication of pathogens in the gut
- ▶ Helps to improve the growth and production

## Recommended Usage Levels:

For routine mixing – 500 g to 1 Kg per ton of feed

During risk conditions (Excess moisture etc) – 1.5 to 2 Kg per ton of feed

Or as advised by a Registered Veterinary practitioner
