

MANUFACTURING FACILITY

We have state of the art manufacturing unit which is spread across a wide area. We have a premise of 6000 Sq. Ft. 2 Nos. and 12,000 Sq. Ft. covered shop floor area. We perform the designing and development of our product range in our facilities. We have all the advanced machinery and equipment to carry out our manufacturing process in a better way. These are managed by our engineers and technocrats and are regularly lubricated and upgraded to ensure higher efficiency and production capacity of our manufacturing wing.

List of the installed capacity at our unit is:

LATHE MACHINES	Overhead CRANE
12 ft 650 Center Height 2 Nos.	10 Ton Capacity 1 No.
07 ft 300 Center Height 1 Nos.	5 Ton Capacity 1 No.
05 ft 200 Center Height 2 Nos.	
DRILLING MACHINES	COMPRESSOR MACHINE.
2 “ Radial Drilling 2 Nos.	3 Hp 2 Nos.
1 “ Pillar type Drilling 2 Nos.	
1 “ Magnetic Drilling 1 No.	
WELDING MACHINES	MEASURING MACHINES.
Welding Rectifier 400amp 12 Nos.	Height Gauge 1000/600mm 1/1 No.
Welding Transformer 300amp 10 Nos.	Vernier 600/300mm 2/1 No.
CO2 Welding machine 400 amp 1 No.	Vernier 200mm 1 No.
Plasma cutting m/c 400amp 2 No.	Screw Gauge 50mm 1 No.
GRINDER	HYDRAULIC PUMP
7” Angle Grinder 14 Nos.	Pressure Gauge 0-10 Kg/Cm ² 1 No.
7” Sander 7 Nos.	Pressure Gauge 0-25 Kg/Cm ² 1 No.
GQ - 4 Grinder 5 Nos.	Pressure Gauge 0-50 Kg/Cm ² 1 No.
GQ – 5 Grinder 5 Nos.	Pressure Gauge 0-100 Kg/Cm ² 2 Nos.
POLISHING MACHINE	PLATE BENDING MACHINE
Flexible Shaft Trolley 3 Nos.	Capacity 20 mm thickness x 2.5 meter width
Single Speed 1 Nos.	

Some of the resources available at our facilities are:

Argon welding involving Trig.
Pre & post weld heat treatment.
NDT e.g. Radiography, D.P. Test. Magnetic particle test, U.T. etc
Sand blasting & painting.
