Pressure washers manage heavy cleaning easily and with very powerful motor, satisfaction is 100% guaranteed. Ideal to clean off the dirt and oil in carpets and heavy objects of the like, the **Alto Kew E140.1-9 S Xtra Pressure Washer**, is easy to maintain and they come at affordable price.

This unique product from Alto Kew is a pressure washer with integrated hose wheel that enables the long hose to be wound up or used with little pressure. It can be used as a stationary version or can be hung on the wall saving space, by a special wall fastener. Ideal for industries and home alike, this sleek machine is one of its kinds in the industry.

The cable and accessory storage is a feature worth mentioning as is the wide wheels, which permits easy mobility and the click and clean nozzle for quick nozzle change for different types of heavy cleaning objects. The performance is guaranteed at 140/130 bars, and high water flow of 420-500 litres per hour. The hose length of 9 metres makes cleaning even the furthest corner simple and dirt free while the cable length of 5 metres enhances the reach of the appliance.

The click and clean power speed nozzle facilitates saving of time and energy without wasting it on tightening the apparatus. Click and clean tornado pressure regulation helps in cleaning even the toughest of dirt with ease, while the click and clean foam sprayer with bottle avoids wastage of soap. The wall bracket enables the **Alto Kew E140.1-9 S Xtra Blue Pressure Washer** to be easily affixed on the wall and recoiling the cables and wires after use and hanging it on the wall saves much space. Ideal to be used regularly without space constraints.
